Education

PhD in Biostatistics, 2020

University of Washington

Advisor: [Dr. Daniela Witten](#)

BSc in Combined Mathematics & Statistics, 2015

University of Victoria

Academic Positions

Assistant Professor, 2020-current

Department of Statistics and Actuarial Science

University of Waterloo

Publications and Preprints

Published or Accepted

1. **Gao, L.L.**, Witten, D. and Bien, J. (2022+) Testing for association in multi-view network data, to appear in *Biometrics*. **[ASA Statistical Learning and Data Science Section Student Paper Award.]**
2. Liu, P., **Gao, L.L.** and Zhou, J. (2022) R-optimal designs for multi-response regression models with multi-factors. *Communications in Statistics - Theory and Methods*, 51(2), 340-355.
3. **Gao, L.L.**, Bien, J. and Witten, D. (2020) Are clusterings of multiple data views independent? *Biostatistics*, 21(4), 692-708. **[ASA Biometrics Section Student Paper Award.]**
4. **Gao, L.L.** and Zhou, J. (2020) Minimax D-optimal designs for multivariate regression models with multi-factors. *Journal of Statistical Planning and Inference*, 209, 160-173.
5. Hsu, E. K., Shaffer, M. L., **Gao, L.**, Sonnenday, C., Volk, M. L., Bucuvalas, J. and Lai, J. C. (2017) Analysis of liver offers to pediatric candidates on the transplant wait list. *Gastroenterology*, 153(4), 988-995.
6. **Gao, L. L.** and Zhou, J. (2017) D-optimal designs based on the second-order least squares estimator. *Statistical Papers*, 58(1), 77-94.
7. **Gao, L. L.** and Zhou, J. (2014) New optimal design criteria for regression models with asymmetric errors. *Journal of Statistical Planning and Inference*, 149, 140-151.

Preprints

1. Neufeld, A., **Gao, L.L.** and Witten, D. (2022+) Tree-values: selective inference for regression trees. <https://arxiv.org/abs/2106.07816>.
 2. **Gao, L.L.**, Bien, J., and Witten, D. (2022+) Selective inference for hierarchical clustering. <https://arxiv.org/abs/2012.02936>.
-

Software

multiviewtest: Hypothesis Tests for Association Between Subgroups in Two Data Views

- R-Package, hosted on [CRAN](#).

clusterpval: Inference for Estimated Clusters in R

- R-Package, hosted on [Github](#).
 - Tutorials available at <http://www.lucylgao.com/clusterpval/index.html>.
-

Presentations

Invited

1. UMass Amherst Statistics Seminar (March 2022, virtual)
2. University of Bristol Statistics Seminar (March 2022, virtual)
3. USC Biostatistics Seminar (February 2022, virtual)
4. UBC Statistics Seminar (February 2022, virtual)
5. Astro@UofT Statistics and Machine Learning Journal Club (October 2021, virtual)
6. HEC Montreal Decision Sciences Seminar (October 2021, virtual)
7. UofT Statistics Seminar (September 2021, virtual)
8. ICSA Applied Statistics Symposium 2021, session on “Advances in selective and simultaneous inference” (September 2021, virtual)
9. JOBIM 2021, session on “Post-selection inference: valid double-dipping” (July 2021)
10. Harvard-BCH Machine Learning and AI Journal Club (May 2021, virtual)
11. UCSF Biostatistics Seminar (March 2021, virtual)
12. International Seminar on Selective Inference (August 2020, virtual)
13. ETH Zurich Young Data Science Researcher Seminar (June 2020, virtual)
14. University of Waterloo Statistics Seminar (January 2020)
15. McGill University Statistics Seminar (December 2019)
16. University of Victoria Statistics Seminar (September 2018)
17. JSM 2018 in Vancouver BC, session on “Discovering Homology in Multi-View Data: New Statistical Methods for Data Integration” (July 2018)

Contributed

1. JSM 2020, session on “SLDS Student Paper Awards” (July 2020, virtual)
 2. WNAR 2020, student paper competition session (June 2020, virtual)
 3. JSM 2019 in Denver CO, session on “ASA Biometrics Section JSM Travel Awards (II)” (August 2019)
 4. WNAR 2019 in Portland OR, student paper competition session (June 2019)
 5. AT&T Graduate Student Symposium in NYC (December 2017)
 6. BIRS Robustness Theory and Methodology: Recent Advances and Future Directions workshop, in Banff AB (September 2016)
 7. JSM 2015 in Seattle WA, session on “New Developments and Applications in Design of Experiments” (August 2015)
 8. CSCC (Canadian Statistics Student Conference) 2014 in Toronto ON (May 2014)
-

Research Funding as Principal Investigator

Internal

New Faculty Start-up Grant: \$60,000 CAD 2020-2025
University of Waterloo

External

NSERC Discovery Grants: \$90,000 CAD 2021-2026
Natural Sciences and Research Council of Canada

NSERC Discovery Launch Supplement: \$12,500 CAD 2021-2022
Natural Sciences and Research Council of Canada

Awards and Scholarships

- (2020) **University of Washington SPH Outstanding PhD Student**, awarded to a graduating Biostatistics PhD student in recognition of excellence in Coursework & Exam Performance, Thesis & Publications, Written & Oral Skills, and Leadership.
- (2020) **ASA Statistical Learning and Data Science Section Student Paper Award**, for “*Testing for association in multi-view network data*”, \$1,000 USD.
- (2019) **ASA Biometrics Section Student Paper Award**, for “*Are clusterings of multiple data views independent?*”, \$1,000 USD.
- (2016-2019) **NSERC PGSD-3**, a doctoral scholarship from the Natural Sciences and Engineering Council of Canada, \$63,000 CAD.
- (2015) **CIHR Summer Studentship Award**, an award providing funding for undergraduate research from the Canadian Institutes of Health Research, \$6,250 CAD.

- (2014) **NSERC Undergraduate Student Research Award**, an award providing funding for undergraduate research from the Natural Sciences and Engineering Council of Canada, \$5,625 CAD.
 - (2013) **NSERC Undergraduate Student Research Award**, \$5,625 CAD .
-

Service

Internal

- (2021-2022) Clinical Research Ethics Board Member at the University of Waterloo
- (2020-2022) Department Seminar Committee Member at the University of Waterloo
- (2017-2018) Peer Mentoring Program Member at the University of Washington
- (2017-2018) Co-organizer for working groups at the University of Washington Biostatistics department (Witten Lab and SLAB Lab)

External

- Reviewer for *Biometrika*, *Journal of the American Statistical Association: Theory and Methods*, *Journal of Machine Learning Research*, *Statistical Science*, *Journal of Computational and Graphical Statistics*, *Journal of the Royal Statistical Society: Series C*, *Electronic Journal of Statistics*, *Biostatistics*, *Statistics in Medicine*, and *Statistical Papers*
-

Advising and Formal Mentoring

Master's Essays, supervisor

1. Qiaoyu Liang (2020-2021)
 - As of Fall 2021: PhD student in Statistics at the University of Toronto
2. Steven Mak (2021-current)

PhD Dissertations, chair

1. Andrew Kenig (2021-current, co-chair w/ Shojaeddin Chenouri)

PhD Dissertations, non-chair

- As internal committee member:
 1. Jason Hou-Liu, Department of Statistics and Actuarial Science, University of Waterloo, PhD Candidate
 2. Marzieh Mussavi Rizi, Department of Statistics and Actuarial Science, University of Waterloo, PhD Candidate
 3. Trang Bui, Department of Statistics and Actuarial Science, University of Waterloo, PhD Candidate

-
4. Yiran Wang, Department of Statistics and Actuarial Science, University of Waterloo, PhD Candidate
-

Teaching

Instructor at the University of Waterloo

STAT 330: Mathematical Statistics Spring 2021

Two undergraduate sections with ~300 students. Lectures were delivered asynchronously online due to the COVID-19 pandemic. Average student course evaluation score: 4.5/5.

STAT 330: Mathematical Statistics Winter 2021

Two undergraduate sections with ~250 students. Lectures were delivered asynchronously online due to the COVID-19 pandemic. Average student course evaluation score: 4.2/5.

Guest Lectures at the University of Washington

STAT 435: Intro to Statistical Machine Learning Winter 2019

Undergraduate section with ~20 students. My guest lecture topic was unsupervised learning methods.

BIOST 546: ML for Biomedical & Public Health Winter 2019

Graduate section with ~30 students. My guest lecture topic was unsupervised learning methods.

BIOST 311: Regression Methods in Health Sciences Spring 2018

Undergraduate section with ~10 students. My guest lecture topic was regression methods for correlated data.

Teaching Assistant at the University of Washington

BIOST 310: Biostatistics in Health Sciences Spring 2018

Undergraduate section with ~125 students. I taught discussion/tutorial sections once a week for ~30 students, held office hours, and graded assignments. I also developed material for discussion/tutorial sections.
